

CASHLESS AUSTRALIA PREDICTED BY 2024

www.bambora.com/en/au/news/will-australia-go-cashless/

Once its gone, its GONE!!

No **cash** for a rainy day, garage sales, markets, grandkids, tooth fairy, piggy banks, pocket money, or family.

Notes and coins are crucial to prevent the exclusion of vulnerable groups like the elderly, low-income households, the homeless and those with disabilities, who may have less access to digital payment means. One-quarter of consumers would face major inconvenience or genuine hardship if they could no longer use **cash**.

1. **Cash** helps us stay within budget and prevents over spending
2. It promotes financial inclusion
3. **Cash** is there when technology fails - not everywhere accepts cards
4. **Cash** protects privacy
5. **Cash** makes it easier to be charitable - it makes tipping easier
6. It helps teach financial literacy
7. It's great in an emergency
8. No **Cash** means all your transactions will be fully digital, traceable & controllable

We have the power to keep cash.

**Put away your plastic cards
and your phone and PAY CASH**
